SUMMARY

Highly motivated Full-stack Developer with a passion for building robust web applications using the MERN stack and Next.js. Experienced in developing complex features such as real-time communication, multi-format content sharing, and administrative dashboards. Proven ability to architect scalable backends and create intuitive, responsive frontends with a focus on testing and modern DevOps practices.

PROJECT

Social Media Platform (Twitter Clone)

twitter-3nniqjbq-qutaibas-projects-281fb24a.vercel.app/

- Built a high-performance social media app supporting text, code snippets, and multi-format file sharing.
- Integrated Socket.io for real-time notifications and instant interactions (likes/comments).
- Developed secure user profiles and authentication flows including Google Login.

E-commerce Platform (Memo Shop)

commerce12s.netlify.app/

- Developed a type-safe e-commerce solution utilizing TypeScript to minimize runtime errors.
- Managed complex application state (cart/favorites) using Redux Toolkit and Context API.
- Implemented dynamic product filtering and optimized MongoDB schemas for high-speed queries.

Next.js Landing Page

mynextlandingpage.netlify.app/

- Created a modern, fully responsive landing page using Next.js for optimized performance and SEO.
- Focused on fluid animations and high-quality UI components using Tailwind CSS.

Clinic Management Admin Dashboard

Private Project

- Developed a comprehensive administrative dashboard for managing doctors, medical services, and clinic schedules.
- Built dynamic CRUD operations and role-based access control (RBAC).

Smart Task

- A folder-based task management system with prioritization and postponement logic.

EDUCATION

Full-stack Development

Self-Directed Learning & Project-Based Boot-camps • Present

- Advanced coursework in Software Architecture, Database Design, and Security.

SKILLS

Next.js, React.js, TypeScript, Redux Toolkit, Context API, Tailwind CSS, MaterialUI (MUI), HTML5, CSS3

Node.js, Express.js, MongoDB, Mongoose, Socket.io (Real-time)

Jest, React Testing Library

DevOps & Docker, CI/CD Pipelines, Git, GitHub, Postman, Vercel, Netlify

Auth & JWT, Google OAuth 2.0, Cloudinary (File/Image Uploads)

Arabic, English
